(1) *Burial expenses proper*. Expenses incident to initial preparation of remains, restricted to:

(i) Undertaker's services, including embalming and other preservative methods.

(ii) Cost of casket.

(iii) Cost of outside box, when required.

(3) *Flag*. An interment flag is authorized to be furnished to drape the casket containing the remains of each officer or enlisted man who dies while on the active list. The flag may be retained by the legal next of kin after the funeral. No flag is authorized to be furnished for a civilian employee.

If such clothing is not available, new clothing may be issued to enlisted men as set forth in Army Regulations. In the case of officers who are not entitled to issue clothing, and in any case of an enlisted man where neither his own clothing nor issue clothing is available, necessary clothing may be purchased chargeable to funds available for the disposition of remains. See 21 Comp. Gen. 673.

(5) *Recovery of bodies*. Necessary expenses to recover bodies.

The \$50 maximum for interment expenses may not be exceeded and payment may be made only for the items allowable by the War Department as set forth in subparagraph (6) (i) above; any expenses over and above this amount or for items not allowable by the War Department must be paid by the relatives who incurred the expenses. A true itemized invoice in quadruplicate covering interment expenses should be submitted by the undertaker rendering the services to the supply officer of the post, camp, or station from which shipment was made. If the entire bill is unpaid a certificate to that effect signed by the undertaker must be placed on the bill; if a portion of the bill has been paid, the amount or amounts paid and by whom should be shown, and the amount remaining due and unpaid should be shown and certified to by the undertaker. In the event that any unpaid bill exceeds the maximum of \$50 referred to in subdivision (i) above, or any items on such bill are not properly payable by the Government, the bill will be paid in the amount allowable under subdivision (i) above, and the remainder of the bill must then be paid by the relatives or other persons who incurred the expenses.

(iii) When remains are shipped to a national cemetery for interment, in the absence of instructions from relatives, the supply officer at the station from which the remains are shipped will arrange by direct negotiation with an undertaker at destination, or will direct the escort accompanying the remains to destination, to make necessary arrangements to have the remains met at the railroad station and transported to the cemetery. In such cases the undertaker rendering the services will submit his invoice to the shipping officer who will prepare a receiving report covering the services rendered and forward it, with the bill and voucher for the services concerned, to the disbursing officer designated to pay the account.

(7) *Cremation*. Remains may be cremated upon written request of legal next of kin only, either at place of death, or after arrival at destination. In addition to the cost of cremation a reasonable amount for a suitable urn for the ashes is authorized.

(ii) Transportation for immediate relatives to the cemetery.

(iii) Ministerial services, exclusive of church services.

(iv) Cost of grave site in private cemetery.

(v) Opening and closing of grave in private cemetery, including use of equipment and services incident thereto.

(vi) Necessary undertaking services incident to (i), (ii) and (v) above.

(i) Costs of removal of the remains from the place where death occurred to an undertaking establishment.

(ii) Procurement of burial and shipping permits.

(iii) Furnishing an outside case for shipment (including, when necessary, the sealing of such shipping case). No allowance for outside case will be made if conveyance is by hearse.

Instead of conveyance by common carrier, removal of the remains overland by hearse (including ferry charges, bridge tolls, and similar items) may be allowed: *Provided*, That the total charges for transportation shall not exceed the total costs of transportation had conveyance been made by common carrier.

(vi) One removal at the place of interment from the common carrier to an undertaking establishment or other place of immediate delivery.

(vii) Transportation expenses of an escort for the remains will not be allowed. However, this will not be con-

(iv) Casket or container suitable for shipment to the place of interment.

(v) Any expenses necessarily incurred in complying with local laws and laws at the port of entry in the United States relative to the preparation of dead bodies for transportation and burial.

(2) Transportation of the remains to the home or official station of the decedent or to such other place as may be designated as the appropriate place of interment, provided that in no case will the expenses payable be greater than the amount which would have been payable had the place of interment been the home or official station, whichever shall be more distant, to include:

(i) Removal of the remains from place where death occurred to an undertaking establishment.

(ii) Removal from the undertaking establishment to a common carrier.

(iii) Transportation by common carrier to the place of interment. The remains may be transported by means other than by common carrier, provided that when conveyance by common carrier is available there will be allowed toward the expense of such other transportation an amount not in excess of the sum allowable had the remains been transported by common carrier.

(iv) One removal at the place of interment from the common carrier.

(v) Transportation expenses of an escort for the remains will not be allowed. However, this will not be construed to prohibit the use by an escort of one of the two tickets required to ship the remains as baggage by railroad.

(3) In addition to preparation and transportation of the remains of these civilian employees, the costs of transportation of dependents of the decedent and of the household effects and other personal property of the decedent and his dependents to his former home or to another place in the United States not more distant than the former home of the decedent are authorized. (See §§ 93.1-93.7 for transportation of dependents and § 93.8 for transportation of household effects and personal effects.)

(f) For military prisoners. Expenses are limited to preparation of remains and interment at place of death. No transportation at Government expense is authorized. [Par. 3]

§ 36.52 *Burial services, how obtained*—(a) *Within continental limits of United States*—(1) *Under contract*. Burial services proper, as set forth in paragraph (a) (1) of § 36.51, will be obtained by negotiation in accordance with current Procurement Regulations, under contracts entered into with local undertakers in the vicinity of military installations. These contracts will be accomplished on Uniform Burial Service Contract forms in accordance with instruc-

tions promulgated by The Quartermaster General. Prior to becoming effective burial service contracts will require the approval of the commanding general of the service command in which the contracting officer is stationed. This information (that contracts will not be effective until approved) will be communicated to the contractor during negotiations. In delegating authority to a member of his staff to approve contracts for burial services, the commanding general of the service command, other qualifications being equal, should select, if available, a quartermaster officer who has had experience in this field. The specifications which form a part of the contract forms will be strictly adhered to and no deviations will be made without first obtaining approval from The Quartermaster General.

(2) *Where no contract is in effect*. In every case where there is no burial service contract in effect at place of death under which the remains may be prepared, the military authorities nearest to the place of death should be notified to take charge and such military authorities will obtain through negotiations the services of a reputable undertaker, make necessary arrangements for the required embalming, preservation, casket, and outside box, and hearse service. The costs in such cases will vary, depending upon circumstances and cause of death, condition of remains, local facilities, etc. However, costs should be kept to the minimum obtainable under the standard set forth in the Uniform Burial Service Contract forms to insure the arrival of the remains at destination in as good a condition as is possible under the circumstances.

(3) *Where arrangements are made by relatives or others and no military authorities are handling case*. (i) If the relatives or other persons arranging for burial services do not pay the undertaker concerned, the undertaker should render an itemized invoice in quadruplicate to The Quartermaster General with the following certificate on each copy thereof:

I certify that the above bill is correct and just; that payment therefor has not been received; that all statutory requirements as to United States production and labor standards, and all conditions of purchase applicable to the transaction have been complied with; and that State or local sales taxes are not included in the amounts billed.

This certificate must be signed by the undertaker.

(ii) If relatives or others arranging for burial services pay the undertaker, reimbursement may be made as set forth in (iii) below only upon receipt by The Quartermaster General of written request for reimbursement from the person paying same, accompanied by an itemized receipted bill in quadruplicate.

(iii) In connection with (i) and (ii) above, The Quartermaster General, upon receipt of itemized invoice, will determine the amount to be allowed based upon all factors entering into the case and forward the claim to the General Accounting Office for settlement.

(iv) In addition to expenses for preparation of remains as set forth above,

there may be allowed expenses for transportation, flag (in the case of military personnel only), clothing, recovery of bodies, cremation, and interment expenses as set forth in § 36.51.

(b) *Reimbursement*—(1) *Statutory authority*. (i) In any case where funeral expenses authorized in § 36.51 are borne by individuals, reimbursement to such individuals may be made of the amount allowed by the Government for such services, but no reimbursement will be made of any expenses incurred prior to the enactment of the act of 17 May 1938, which would not have been a proper charge against the Government prior to the date of approval thereof.

(ii) When the expenses of the recovery, preparation, and disposition of remains of officers, warrant officers and enlisted men of the National Guard; members of the Officers' Reserve Corps and of the Enlisted Reserve Corps; members of the National Guard of the United States; members of the Reserve Officers' Training Corps and members of the Citizens' Military Training Camps, or any part thereof, are paid by individuals, such individuals may be reimbursed therefor at an amount not exceeding that allowed by the Government for such services.

(2) *Limitation*. Except in the case of the civilian employees enumerated in paragraph (c) (3), (4), and (5) of § 36.50, if at the time and place of death a properly approved contract was in force, the amount to be allowed for burial expenses proper will be limited to the sum that such contract would have allowed for a similar case. However, if no such contract was in effect at the time and place of death, determination as to the amount to be allowed will be made by The Quartermaster General. It is not compulsory for relatives to utilize the services of the contract undertaker where a contract is in effect, but the War Department may allow for reimbursement on the items covered by the contract only the amount the department would have paid thereunder for such items. [Par. 4]

§ 36.53 *Shipment after temporary interment*. (a) When it is impracticable to ship the remains at the time of death, or if it is impossible to communicate with the emergency addressee before interment, the remains may be subsequently disinterred and shipped home at Government expense at the request of the emergency addressee.

(b) If the emergency addressee states that shipment home is not desired and the remains are interred at Government expense, subsequent disinterment or shipment of the remains will not be made at Government expense.

(c) When remains are interred at place of death during hostilities they subsequently may be disinterred and shipped home at Government expense. [Par. 5]

This regulation amends Regulations No. 3¹ (Part 403, Title 20, Code of Federal Regulations, 1940 Supp.), by amending §§ 403.709 (e) and 403.709 (h) of Regulations No. 3, as amended, as follows:

1. Section 403.709 (e) is amended so as to read:

(e) *Time and place of hearing, and hearings on new issues.* The referee shall fix a time and place for the hearing. Written notice of the time and place of hearing, unless waived by a party, shall be mailed not less than 10 days prior to such time, to the parties at their last known addresses or given to them by personal service. Written notice of the objections of any party to the time and place fixed for a hearing shall be filed with the referee at the earliest opportunity of the objecting party. The notice shall state the reasons for the party's objections and his desires as to the time and place for hearing.

At any time after a request for a hearing has been made as provided in this section, but prior to the mailing of notice of the decision, the referee may in his discretion, either on the application of a party or on his own motion, in addition to the matters brought before him by the request for hearing, raise an issue on any other matter (whether similar or different in nature) designated in § 403.706 (a) which may affect the rights of any party to the matter pending before him, even though the Bureau has not made an initial or reconsidered determination with respect to such new issue; *Provided, however,* That notice of the time and place of the hearing on such new issue shall, unless waived, be given to the parties within the time and in the manner specified in the first subparagraph of this paragraph. Upon the giving of such notice, the matter shall, except as otherwise provided, proceed to hearing and be treated in the same manner as a matter on which an initial or reconsidered determination has been made by the Bureau and a hearing requested with respect thereto by a party entitled to such hearing.

The referee may change the time and place for the hearing, either upon his own motion or for good cause shown by a party. The referee may adjourn or postpone the hearing, or reopen the hearing for the receipt of additional evidence at any time prior to the mailing of notice of the decision in the case. Reasonable notice shall be given to the parties of any change in the time or place of hearing or of an adjournment or a reopening of the hearing.

(§ 403.1, Title 20, Code of Federal Regulations, 1940 Supp.)

2. Section 403.709 (h) is amended so as to read:

(h) *Joint hearings and consolidated issues.* When two or more hearings are to be held, and the same or substantially similar evidence is relevant and material to the matters in issue at each such hearing, the referee may fix the same time and place for each hearing and conduct all such hearings jointly. Where joint hearings are held, a single record of the proceedings shall be made and the evidence introduced in one case may be considered as introduced in the others, but a separate decision shall be made in each case.

When one or more new issues are raised by the referee pursuant to paragraph (e) of this section, such new issues may, in the discretion of the referee, be consolidated for hearing and decision with other issues pending before him upon the same application, whether or not the same or substantially similar evidence is relevant and material to the matters in issue, and a single decision may be made upon all such issues.

In the matter of the recommendation of Industry Committee No. 45 for a minimum wage rate in the Embroideries Industry.

Whereas on June 6, 1942, by Administrative Order No. 145, the Administrator, acting pursuant to sections 5 and 8 of the Fair Labor Standards Act of 1938, appointed Industry Committee No. 45 for the Embroideries Industry, and directed the Committee to recommend minimum wage rates for the Embroideries Industry in accordance with section 8 of the Act; and

Whereas the Committee included four disinterested persons representing the public, a like number of persons representing employers in the Embroideries Industry, and a like number representing employees in the Industry, and each group was appointed with due regard to the geographical regions in which the Embroideries Industry is carried on; and

Whereas Industry Committee No. 45, on June 30, 1942, after investigation of conditions in the Industry, filed with the

Whereas the complete record of the proceeding before the Presiding Officer was transmitted to the Administrator; and

Whereas pursuant to notice published in the FEDERAL REGISTER on December 29, 1942, all persons who appeared at the hearing were given leave to file briefs on or before January 19, 1943; and

The following regulations, §§ 633.101 to 633.112 applicable to the employment of industrial home workers in the Embroideries Industry are hereby issued pursuant to sections 8 (f) and 11 (c) of the Fair Labor Standards Act of 1938, and § 633.3 of the regulations of the Wage and Hour Division. These regulations shall become effective November 15, 1943, and shall be in force and effect until repealed or modified by regulations hereafter made and published.

Whereas section 8 (f) of the Fair Labor Standards Act of 1938 provides as follows:

Now, therefore, the following regulations are hereby issued. These regulations shall become effective on November 15, 1943, and shall be in force and effect until repealed or modified by regulations hereafter made and published.

- Sec.
633.101 Definitions.
633.102 Application on official forms.
633.103 Terms and conditions for the issuance of certificates.
633.104 Investigation may be ordered to determine whether the facts justify the issuance of certificate.
633.105 Termination of certificates.
633.106 Revocation and cancellation.
633.107 Preservation of certificate.
633.108 Records and reports.
633.109 Wage rates.
633.110 Delegation of authority to grant, deny or cancel a certificate.
633.111 Petition for review.
633.112 Petition for amendment of regulations.

AUTHORITY: §§ 633.101 to 633.112, inclusive, issued under secs. 8, 11, 52 Stat. 1064, 1066; 29 U.S.C. 208f, 211c; § 633.3 supra.

§ 633.101 *Definitions.* As used in these regulations, the term "industrial home work" means the production by any person in or about a home, apartment, tenement, or room in a residential establishment, for an employer, of goods from material furnished directly by or indirectly for such employer.

"The Embroideries Industry" as used herein means:

The production of all kinds of hand and machine-made embroideries and ornamental stitchings, including, but not by way of limitation, tucking, shirring, smocking, hemstitching, hand rolling,

fagoting, Bonnaz embroidery, appliqueing, crochet beading, hand drawing, machine drawing, rhinestone trimming, sequin trimming, spangle trimming, eyelets, passementerie, pleating, the application of rhinestones and nailheads, stamping and perforating of designs, Schiffli embroidery and laces, burnt-out laces and velvets, Swiss hand-machine embroidery, thread splitting, embroidery thread cutting, scallop cutting, lace cutting, lace making-up, making-up of embroidered yard goods, straight cutting of embroidery and cutting out of embroidery, embroidery trimmings, bindings (not made in textile establishments), pipings and emblems: *Provided, however, That* (a) the foregoing when produced or performed by a manufacturer of a garment, fabric or other article for use on such garment, fabric or other article, and (b) the manufacture of covered buttons and buckles, shall not be included.

§ 633.102 *Application on official forms.* Certificates authorizing the employment of industrial home workers in the Embroideries Industry may be issued upon the following terms and conditions upon application therefor on forms provided by the Wage and Hour Division. Such forms shall be signed by both the home worker and the employer.

§ 633.103 *Terms and conditions for the issuance of certificates.* If the application is in proper form and sets forth facts showing that the worker—

(a) (1) Is unable to adjust to factory work because of age or physical or mental disability; or

(2) Is unable to leave home because his presence is required to care for an invalid in the home; and

(b) (1) Was engaged in industrial home work in the Industry, as defined, prior to November 2, 1942 (except that if this requirement shall result in unusual hardship to the individual home worker it shall not be applied); or

(2) Is at any time engaged in such industrial home work under the supervision of a State Vocational Rehabilitation Agency or of a Sheltered Work Shop, as defined in § 525.1, Part 525, Chapter V, Title 29, Code of Federal Regulations, a certificate may be issued authorizing the applicant employer to employ the worker in industrial home work in the Embroideries Industry.

No home worker shall perform industrial home work for more than one employer in the Embroideries Industry, but home work employment in another industry shall not be a bar to the issuance of a certificate for the Embroideries Industry.

§ 633.104 *Investigation may be ordered to determine whether the facts justify the issuance of certificate.* An investigation may be ordered in any case to obtain additional data or facts. A medical examination of the worker or invalid may be ordered or a certification of facts concerning eligibility for the certificate by designated officers of the State or Federal Government may be required.

§ 633.105 *Termination of certificates.* Certificates shall be valid under the terms

set forth in the certificate for a period of not more than 12 months from the date of issuance or such shorter period as may be fixed in the certificate. Application for renewal of any certificate shall be filed in the same manner as an original application under these regulations.

§ 633.106 *Revocation and cancellation.* Any certificate may be revoked for cause at any time. Violation of any provision of the Fair Labor Standards Act shall be sufficient grounds for revocation of all certificates issued to an employer, in which event no certificates shall be issued to the offending employer for a period of one year. In any proceedings for the revocation or cancellation of a certificate, interested parties shall be provided an opportunity to be heard.

§ 633.107 *Preservation of certificate.* A copy of the certificate shall be sent to the home worker, who shall keep such certificate on the premises on which the work is performed.

A copy of the certificate shall be sent to the employer, who shall keep this copy on file in the same place at which the worker's employment records are maintained.

§ 633.108 *Records and reports.* The issuance of a certificate shall not relieve the employer of the duty of maintaining the records required by Regulations, Part 516, and failure to keep such records shall be sufficient cause for the cancellation of certificates issued to such an employer.

Each employer of industrial home workers in the Embroideries Industry shall submit to the regional office of the Wage and Hour Division for the region in which his place of business is located on April 1 and October 1 of each year, the home work handbooks of each employee employed by him during the preceding six month period in industrial home work in the Embroideries Industry. This report shall also include a list of the names, addresses, and certificate numbers of home workers for whom home work certificates have been obtained, but who were not employed in industrial home work in the Embroideries Industry during such period.

§ 633.109 *Wage rates.* Wages at a rate of not less than 40 cents per hour shall be paid by every employer to each of his home work employees except as subminimum employment of specific handicapped workers has been provided for by special certificates issued by the Wage and Hour Division pursuant to regulations, Parts 524 and 525. All hours worked in excess of 40 in any workweek shall be compensated for at one and one-half times the regular rate of pay.

§ 633.110 *Delegation of authority to grant, deny or cancel a certificate.* The Administrator may from time to time designate and appoint members of his staff or State agencies as his authorized representatives with full power and authority to grant, deny, or cancel home work certificates.

§ 633.111 *Petition for review.* Any person aggrieved by the action of an authorized representative of the Administrator in granting or denying a certificate may, within 15 days thereafter or within such additional time as the Administrator for cause shown may allow, file with the Administrator a petition for review of the action of such representative praying for such relief as is desired. Such petition for review, if duly filed, will be acted upon by the Administrator or an authorized representative of the Administrator who took no part in the proceeding being reviewed. All interested parties will be afforded an opportunity to present their views in support of or in opposition to the matters prayed for in the petition.

§ 633.112 *Petition for amendment of regulations.* Any person wishing a revision of any of the terms of the foregoing regulations may submit in writing to the Administrator a petition setting forth the changes desired and reasons for proposing them. If upon inspection of the petition the Administrator believes that reasonable cause for amendment of the rules and regulations is set forth, the Administrator will either schedule a hearing with due notice to interested persons or will make other provisions to afford interested persons opportunity to present their views in support of or in opposition to the proposed changes.

Signed at New York, New York, this 21st day of August 1943.

Administrator.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P-98-e]

§ 1041.6 Preference Rating Order P-98-e—(a) *Purpose of this order; assignment of preference rating and allotment symbol.* The purpose of this order is to make it easier to get materials for the maintenance and repair of petroleum equipment used by consumer accounts. Accordingly, a preference rating of AA-5 and the allotment symbol MRO-P-98-e may be used by consumer accounts and repairers to get material for the maintenance and repair of petroleum equipment. The way to use the rating and the allotment symbol is explained below.

(b) *Who may use this order.* This order may be used by any householder, farmer, industrial concern, institution, governmental agency or other person or organization, to get materials for the maintenance or repair of petroleum equipment which he uses in connection with his consumption of petroleum products. These persons and organizations

are called "consumer accounts" in this order. It may also be used by persons or organizations who maintain or repair petroleum equipment for consumer accounts. These persons and organizations are called "repairers" in this order. This order may not be used for the maintenance or repair of any equipment which is used in connection with the manufacture, distribution or sale of petroleum products, such as equipment in refineries, bulk plants or filling stations.

(c) *Meaning of "petroleum equipment."* The phrase "petroleum equipment" refers to equipment which is used for storing or dispensing the following:

Gasoline, when used as a motor fuel
Diesel oil, when used as a motor fuel
Tractor fuel, when used as a motor fuel
Lubricating oil, when used as a lubricant
Lubricating grease, when used as a lubricant

Liquefied petroleum gas (that is, butane, propane, propylene, butene, butylene, or any combination or dilution of them known as "liquefied petroleum gas"), for any use.

This equipment will include:

Motor fuel and gasoline dispensing pumps
Barrel and drum pumps
Hand and pressure lubricating equipment
Storage tanks, containers, and cylinders
Housing, piping, valves and regulators used in storing or dispensing liquefied petroleum gas.

However, equipment such as gas ranges, stoves, radiators, automobiles, tractors, or other equipment in which the products mentioned above are burned or consumed cannot be said to be used for storing and dispensing. Hence, this equipment is not "petroleum equipment" and cannot be maintained or repaired under this order.

(d) *Meaning of "maintenance and repair."* The words "maintenance and repair" mean keeping equipment in a sound working condition or fixing equipment if it has broken down. However, maintenance and repair does not include the restoration or replacement of any complete motor fuel or gasoline dispensing pump, complete pressure lubricating system, complete storage tank, having a capacity of more than 65 gallons, used for storing motor fuel or lubricants, or any complete storage tank or cylinder, regardless of the capacity, used for storing liquefied petroleum gas.

(e) *How to use this order.* To use the preference rating and allotment symbol authorized above, a consumer account or repairer must take certain steps as follows:

(1) He must give his supplier a written purchase order for the materials he wants to buy. Any kind of written order will do, if it names the supplier, lists each item being bought and the price, and states when the supplier is to deliver it. The supplier will often help the buyer make out the purchase order, fill in the price, etc.

(2) The consumer account or repairer must put on the purchase order a statement similar to the following one, and sign the statement:

Preference Rating AA-5—Allotment Symbol MRO-P-98-e. I certify to the War Production Board, subject to criminal penalties

for misrepresentation, that I am entitled to use this rating and symbol under Order P-98-e.

(Signature of consumer account or repairer)

If he wishes, the consumer account or repairer, instead of using this statement, may use the certificate given in CMP Regulation No. 7 or that given in Preference Rating Order P-98-b, as amended.

(3) The consumer account or repairer must make a copy of each purchase order and keep it for at least two years. When requested, these copies must be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(4) If the total cost of the items on the purchase order is \$100 or more, the consumer account or repairer must make still another copy of the purchase order. He must send this copy promptly to the District Office of the Petroleum Administration for War for the District where the materials will be used. So that the copy may be identified he should place the symbol Ref: P-98-e on the envelope. A list of the District Offices is contained in List A of the order.

This additional copy is sent for the information of the Petroleum Administration for War so that it can know the need for material of this sort and is not sent to obtain approval of the purchase. Where the total cost of the purchase order is less than \$100 no copy need be sent.

(f) *When this order may not be used.* In certain instances, even if he has done everything required by the preceding paragraph, a consumer account or repairer must not use this order to get materials for maintenance or repair work:

(1) A consumer account must not use this order to get materials to keep on hand. He must not buy more than he needs to do a particular job.

(2) A repairer may use this order to get materials to keep on hand as inventory, but he must never buy more than he will need for the next 60 days. In deciding how much he will need for the next 60 days, he must take into account materials which he already has in his inventory as well as those which he is buying.

(3) A consumer account or repairer must not use this order to get materials which can be bought without the use of any preference rating or allotment symbol. Most used articles can be bought without a rating or symbol, and many kinds of new items as well.

(4) A consumer account or repairer must not use this order to get material which will be used to replace a part which is still serviceable.

(5) A consumer account or repairer must under no circumstances use this order to obtain materials for any purpose except the maintenance or repair of petroleum equipment.

(g) *Technical provisions.* The following are technical statements which are included so as to give full legal effect to the procedure established in this order:

(1) The allotment symbol MRO-98-e shall constitute an allotment symbol for the purpose of CMP Regulation No. 3.

(2) Any purchase order for controlled materials bearing the allotment symbol MRO-P-98-e and the statement of paragraph (e) shall constitute an authorized controlled materials order.

(3) If a consumer account or repairer obtains any repair parts or material in accordance with the procedures of this order, the provisions of paragraphs (s), (s-1), and (u) of CMP Regulation No. 1 and the provisions of CMP Regulation Nos. 2, 5 and 5A (and the limitations incorporated in any CMP Regulation which otherwise would subject a consumer account or repairer to the provisions of CMP Regulations 2, 5 and 5A) shall not apply to the transaction.

(h) *Use of other orders.* Certain consumer accounts, particularly industrial or commercial concerns, can use other regulations or orders of the War Production Board to get repair materials or parts. These consumer accounts have the choice of using this order or

any other regulation or order which they may be entitled to use.

(i) *Where to write concerning this order.* All letters, questions and appeals concerning this order, except delivery orders which must be filed with the District Offices should be addressed to: Petroleum Administration for War, Interior Building, Washington 25, D. C., Ref: P-98-e.

(j) *Violations.* Any person who willfully violates any provision of this order or who wilfully furnishes false information to the Petroleum Administration for War or the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

Issued this 2d day of September 1943.

By J. JOSEPH WHELAN,
Recording Secretary.

PART 3102—NATIONAL EMERGENCY SPECIFICATIONS FOR STEEL PRODUCTS

[Schedule 4 as Amended Sept. 2, 1943, to Limitation Order L-211]

STRUCTURAL STEEL SHAPES

(a) *Definitions.* (1) "Structural steel shape" means any of the following steel flanged sections having at least one dimension of its cross section 3 inches or greater: beams, channels, joists, columns, stanchions, bearing piles, angles, bulb angles, zees, tees, or sill, side post, or side plate car sections. The term does not include special sections such as steel sheet piling and elevator guide rails.

(2) "Government order" means an order placed:

(i) By the Government of the United States or any department or agency thereof, or

(ii) By any other person covering material to be physically incorporated into material to be delivered to such government, department, or agency, or

(iii) By a warehouse which has been designated by such government, department, or agency as a source of supply for government orders, for delivery to a stock maintained for that purpose.

(b) *Restrictions in sizes and shapes.* No person shall produce, fabricate, or deliver any structural steel shape except in a size and shape set forth in Table 1 of this schedule.

(c) *Restrictions on specifications.* (1) *Government orders.* No person shall produce, fabricate, or deliver on a Government order any structural steel shape which does not conform to a specification set forth in List 1 or List 2 of this schedule.

(2) *Other orders.* No person shall produce, fabricate, or deliver on any order other than a government order any structural steel shape which does not conform to a specification set forth in List 1 of this schedule.

(d) *Acceptance of delivery.* No person shall accept delivery of any struc-

tural steel shape which he knows or has reason to believe was produced, fabricated or delivered in violation of the provisions of paragraphs (b) or (c).

(e) *General exceptions.* The provisions of paragraphs (b), (c) and (d) shall not apply to structural steel shapes:

(1) Which have been produced or fabricated before February 25, 1943, or which before that date were processed in such manner and to such extent that processing to conform to those provisions would be impracticable, or

(2) When production, fabrication, delivery or acceptance is specifically permitted in writing by the War Production Board. In the case of alloy structural steel shapes, such permission may be granted with respect to chemical compositions by the approval of a melting, production, or delivery schedule.

(3) Of other sizes and shapes or other specifications which are produced, fabricated, delivered or accepted upon certification by the Army, Navy, or Maritime Commission to the producer, fabricator or supplier and to the War Production Board that such other sizes or shapes or such other specifications are necessary to insure the military characteristics of the item for which such structural steel shapes are required. Such certification shall specify the contract involved and the justification for the exception.

(f) *Exceptions on specifications.* The provisions of paragraphs (c) and (d) shall not prevent:

(1) Waiver by the purchaser or procuring agency of any of the inspection or test requirements of the specifications, or

(2) Delivery or acceptance of structural steel shapes which because of errors in manufacture do not conform to the requirements of paragraph (c), if those requirements are waived by the purchaser or procuring agency, or

(3) Delivery or acceptance, on an order for stock steel shapes, of shapes resulting from an overrun in the production of carbon steel structural shapes to specifications set forth in List 1 or List 2 of this schedule.

(g) *Records.* Each person owning or possessing structural steel shapes excepted by the provisions of paragraph (e) or (f) shall retain records of such material available for inspection by duly authorized representatives of the War Production Board. In addition, each person accepting an order for structural steel shapes excepted by the provisions of paragraph (e) (3) shall furnish details of such order to the War Production Board within ten days after acceptance. The record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 2d day of September 1943.

§ 4501.1 Utilities Order U-2—(a) Definitions. For the purpose of this order:

NOTE: Paragraph (a) (1) amended Sept. 2, 1943.

(1) "Operator" means any individual, partnership, association, business trust, corporation, receiver, or any form of enterprise whatsoever, whether incorporated or not, the United States, the District of Columbia, any state or territory of the United States, any political, corporate, administrative or other division or agency thereof, to the extent engaged in rendering telephone communication service within, to, or from the United States, its territories or possessions.

(2) "Exchange line plant" means all that portion of an operator's local wire or cable distribution system which extends from the central office main frame, exclusive of poles, crossarms, insulators, and non-metallic conduit, and associated hardware and guys, and exclusive of drop and block wires.

(3) Without regard to whether or not the expenditures therefor are for any reason required to be recorded in the operator's accounting records in accounts other than maintenance and repair:

(i) "Maintenance" means the minimum upkeep necessary to continue a facility in sound working condition.

(ii) "Repair" means the restoration of a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like.

(iii) Neither maintenance nor repair shall include the improvement of any plant, facility or equipment, by replacing material which is still usable with material of a better kind, quality or design.

(4) "Drop and block wires" means the portion of a customer's circuit (whether aerial or underground) extending from the inside wire (usually at the station protector or connecting block), or from the station equipment when no inside wire is involved, to the point of connection with the general overhead or underground system. This includes such circuit, carried by means of wire or small cables, extending to the cable terminal

in cases where connection is made with a general cable system, or to the point of connection with the aerial wire plant in cases where connection is made with a general wire system, and also includes brackets, bridge rings, insulators, knobs, span clamps, screws, sleeves, strand, tubes, and other material used in the installation of drop and block wires; and the pipes or other protective covering for underground service connections.

(5) "Station installations" means the wires (or small cables) from the station apparatus to the point near the entrance to the building where the drop or block wire or cable terminates, or to the junction boxes where the house cable or other cable terminates; the wires (or small cables) used to connect station apparatus in the same building, such as main stations with extension stations, and stations of intercommunicating systems; the wires (or small cables) used to connect private branch exchange switchboards or their distributing frames with terminal stations located in the same building, and the clamps, cleats, connecting blocks, ground wire, ground rods, nails, station protectors, screws, and other material used in the installation of station apparatus and inside wires. The cables referred to above are the small cables used in station installations instead of wires, such as those run from wall outlets or floor terminals to the station apparatus. Inside wires (or small cables) installed specifically to serve as trunk, battery, or generator circuits from a private branch exchange to the point of connection with the permanent house or outside cables or wires shall be considered as a part of the station installation. The term "station installations" does not include the telephone instrument or other "station apparatus."

(6) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(b) General. (1) All operators shall conserve scarce and critical materials by the employment of all practical methods such as: the use of such types of equipment and facilities as will reduce the use of such materials to a practical minimum and meet necessary service requirements, the substitution of less scarce materials, when such substitution can be made without serious loss of efficiency, the reuse of existing telephone equipment and facilities.

In order to make maximum use of existing facilities and at the same time to avoid as far as practicable the use of scarce and critical materials to provide additional exchange central office call carrying capacity and exchange inter-office trunks in the event of any future substantial increase in local telephone usage, all operators shall limit the number of main telephone stations (i. e., the total number of stations and P. B. X. trunks exclusive of extension stations and P. B. X. stations) connected to any central office to 105 per cent of the number of main stations that the central office was designed to serve under pre-

war engineering and operating practices or such other percentage as may be specifically approved by the War Production Board (except this limitation need not be applied in the case of a single-office exchange where the central office is designed to serve less than 1000 main telephone stations): *Provided, however*, That where the number of main stations now connected to a central office already exceeds the 105 per cent limit specified above, the number already connected need not be reduced so long as the service is satisfactory.

(2) (i) All operators shall discontinue the further installation or reconnection of residence extensions, residence private branch exchange telephones or the employment of additional main lines or stations on party lines in substitution therefor and the further installation of jacks and plugs in connection with residence service. Jacks already in place may be reconnected provided that the customer shall have not more than one telephone and one bell in his residence.

(ii) In cases of practicing physicians and surgeons certain residence extension telephone service may be provided. The operator may install or reconnect one extension telephone, or as an alternative install two jacks for use with a portable telephone, where it is determined that the relocation of the main line telephone will not substantially meet his requirements for service and that the installation of facilities to provide extension service is essential to the subscriber in the proper discharge of his duties and responsibilities for public health, welfare or security. In addition the operator may establish a connection with an answering bureau, if no additional facilities are required in the answering bureau.

(iii) Temporary installation of one residence extension may be made when essential in cases of serious illness.

(iv) The installation and reconnection in residence quarters of telephones connected to private branch exchanges serving hotels, apartment houses, etc., may be made to the extent that no more than one telephone shall be provided in any single residence quarters.

(3) All operators shall discontinue the placing of open copper wire in exchange line plant.

(4) All operators shall discontinue the further installation of dial private branch exchange systems and dial private intercommunicating systems. This does not, however, prohibit: the installation by an operator of such systems of less than 100 lines where such equipment is already in the stocks of operators; the installation of additions to such existing systems; or, moves of such systems for the same subscriber within the same exchange area, or to a contiguous exchange area of the same operator, where effected

in accordance with the limitations of paragraph (e) of this order.

(5) Service, involving exchange central office equipment and/or exchange line plant, installed or reconnected on and after the 15th day of April, 1943 shall be on an interim basis only, that is, subject to regrading and disconnection as provided in paragraph (d). Exchange central office equipment and/or exchange line plant or telephone sets made available through normal disconnections shall be used to take care of current applications for service of the kind included in paragraph (e) (1) (i) before such facilities are used currently to complete applications for service in other categories. Idle facilities may be reserved where necessary to meet promptly the known or fairly anticipated service requirements of the kind included in paragraphs (e) (1) (i) and (e) (1) (ii).

(6) [Revoked, Sept. 2, 1943].

(7) Except where necessary to meet the needs for Schedule A business service and for essential public pay stations, all operators shall limit the further installation of drop and block wires along any pole line in exchanges serving more than 1,000 main telephone stations to one pole-to-pole span from the point of connection with the existing plant (except where this span is less than 75 feet, in which case the length along the pole line shall be limited to two spans) and in exchanges serving less than 1,000 main stations to two pole-to-pole spans from the point of connection with the existing plant. However, the drop wire may be extended beyond the limit specified to a messenger strand attachment in the next adjacent span, and to a single pole outside the line when such attachment is necessary to provide clearance over a street or to clear a tree or other obstacle.

(c) *Restrictions on replacements.*

(i) By regrading existing service whenever current installations of central office equipment will permit, except where regraded service will not meet the minimum service needs of residence subscribers of the kind included in paragraph (e) (1) (i) or of business subscribers. In so far as practicable such service shall be regraded in the reverse order of the dates of connection at the existing locations (i. e., the most recently connected service shall be regraded first), except that service furnished on an interim basis shall be regraded before other service.

(ii) By disconnection of service furnished on an interim basis other than that of the kind included in paragraphs (e) (1) (i) and (e) (1) (ii). In so far as practicable disconnection of such service shall be in the reverse order of the dates of connection at the existing locations, except that residence service shall be disconnected before business service.

(2) [Revoked Sept. 2, 1943.]

(e) *Limitations on additions.* (1) All operators shall limit additions of exchange central office equipment and exchange line plant to such as are essential to the maintenance or protection of existing service, except that, when no additional facilities may be recovered or made available by the methods described in paragraph (d) above, additions may be made to the extent necessary:

(i) To meet the known or fairly anticipated demands for service essential to persons engaged in direct defense or charged with responsibility for public health, welfare or security including, but not limited to, those in the service categories shown in Schedule A attached; where their employment in direct defense or their responsibilities for public health, welfare, or security require such service for the proper discharge of such duties: *Provided*, That such additions shall not be made for residence service except in accordance with paragraphs (e) (1) (iii) and (e) (1) (iv).

(f) *Engineering and planning.* Except in respect to poles, crossarms, insulators and non-metallic conduit, and associated hardware and guys, all operators shall:

(1) Engineer all replacements and additions to exchange plant so as to limit the margins for expected growth of service requirements of the kind described in paragraphs (e) (1) (i), (e) (1) (ii), to a period not in excess of one-half the period for which provision would be normally made, but in no event to exceed a period of three years.

(2) Engineer all replacements or additions to toll plant so as to limit the margins for expected growth of service requirements to a period not in excess of one-half the period for which provision would be normally made, but in no event to exceed a period of three years; provided, however, that this requirement shall not require the limitation of the margins of such growth to a period less than one year, and provided, further, that conductors in cables designed or suitable for use with carrier current systems may be provided (but not equipped) in such numbers that, when fully utilized by present or immediately contemplated carrier current system technique, they will provide for margins for expected growth of one-half the normal provision for such growth, even though such provision exceeds a three-year period.

(g) *Non-applicability to certain replacements and additions.* The terms of paragraphs (b), (c), (e) and (f) shall not prohibit:

(1) Wire communications projects approved by the War Production Board on Forms WPB-617 (PD-200), WPB-2774 (UF-30), WPB-1696 (PD-685), or other appropriate form.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Restriction Order 6]

DISTRIBUTION OF MILK IN THE TERRITORY OF PUERTO RICO

Preamble: Under Amendment No. 26 to Maximum Price Regulation No. 183, effective May 3, 1943, the maximum price of milk in Puerto Rico varies in each of three zones wherein the milk may find its point of use.

Due to a decrease in production, milk which usually found its point of use in the lower price zones is now being transferred to certain municipalities of Zone I which is a higher price zone, thus creating a scarcity of milk in many municipalities within the lower price zones. In addition, the Armed Services are now purchasing substantial quantities of milk formerly available for civilian consumption.

In order to control the distribution of this essential commodity and avert the diversion of milk from lower price zones to municipalities within a higher price zone, Restriction Order No. 6 provides that transfers of milk from Zone II or Zone III to San Juan, Santurce, Rio Piedras, Catano, Bayamon, Guaynabo, Toa Alta or Toa Baja shall only be permitted upon the written authorization of the Territorial Director. In permitting such transfers, the Director is to be guided by the situation prevailing in May, 1943, before the occurrence of harmful diversions in the flow of milk from one zone to another.

Pursuant to Executive Order No. 9074 (7 F.R. 1587) and in accordance with the provisions of Public Law 127, 78th Congress, approved July 9, 1943, there are hereby promulgated the following air raid and black-out regulations for the protection and security of vessels, harbors, ports, and waterfront facilities superseding on the effective date hereof the regulations previously issued in this part:

| 10.6 | Duties on red signal. |
| 10.7 | General rules for all vessels. |
| 10.8 | Special rules for vessels under way. |
| 10.9 | Special rules for vessels at anchor. |

Sec.

- 10.10 Special rules for vessels moored to piers or docks.
 10.11 General rules for piers and docks.
 10.12 Rules for piers and docks on red signal.
 10.13 Penalty for violation of regulations.

§ 10.1 *Effective date.* These regulations shall be effective at 12:01 a. m. September 1, 1943.

§ 10.2 *Area in which regulations apply.* These regulations shall apply to all vessels, harbors, ports, and waterfront facilities, including those located on the inland navigable waters of the United States as well as those on the sea coasts, located in the Eastern Defense Command, which includes the states of Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida east of the Apalachicola River, and the District of Columbia, and located in the Southern Defense Command, which includes the states of Alabama, Tennessee, Mississippi, Louisiana, Arkansas, Oklahoma, Texas, New Mexico, and Florida west of the Apalachicola River.

§ 10.3 *Responsibility for execution of regulations.* The responsibility for the execution of these regulations shall rest upon the master or senior officer present on board a vessel, and the operator of a waterfront facility. During the time an air raid warning alarm is in effect, the master or senior officer present on board a vessel shall comply immediately with all special instructions or orders issued by officers of the Army, Navy, or Coast Guard.

§ 10.4 *Air raid warning signals.* The air raid warning signals and the all clear signals shall be the signals prescribed by the Commanding General, Eastern Defense Command, U. S. Army, and the Commanding General, Southern Defense Command, U. S. Army, for the areas included in their respective commands, and such modifications thereof as may hereafter be prescribed for such areas by them. The signals at this time are as follows:

(a) *Yellow signal.* This is a confidential preliminary caution signal not to be given by audible public alarm. It indicates the possibility of an air raid in the district so warned. This signal shall be transmitted by civilian defense authorities only to such key persons and facilities, essential industries, railroads, and places within such warning districts as such authorities deem essential to initiate proper steps to insure timely black-out or air raid precautions.

(b) *Mobilization and black-out (blue) signal.* This is an audible warning signal indicating the probability of an air raid in the district so warned. This signal will be a long note (approximately two minutes) at steady pitch of sirens, horns, or whistles.

(c) *Air raid (red) signal.* This is an audible public warning signal indicating the proximity of enemy aircraft and the imminence of an air raid in the district so warned. This signal (approximately two minutes) will be a series of short blasts of horns and whistles or a warbling

or fluctuating sound of varying pitch of a siren.

(d) *All clear (white) signal.* This signal is a public signal indicating all clear in the district so warned. This signal may be transmitted by radio, telephone, police, by turning on street lights which have been extinguished on the Blue signal or other available means. This signal may also be given by horns, whistles, or sirens, as specified by local civilian defense authorities: *Provided, however,* That such audible signal shall not be the same as the mobilization and black-out (Blue) signal and the air raid (Red) signal and shall not resemble said signals so as to be confused therewith.

(e) *Order of signals.* Ordinarily, a yellow signal shall precede a blue signal and a blue signal shall precede a red signal. However, if sufficient time is not available for these signals to be separated by at least five (5) minutes, the yellow signal and/or the blue signal may be omitted, so that a blue signal may be given without a prior yellow signal and a red signal may be given without a prior yellow and/or blue signal. A blue signal shall follow every red signal, after an interval of not less than five (5) minutes and may in turn be followed by a white signal or by another red signal. Upon the sounding of a blue signal, persons and vehicles should give consideration to movement to places of safety in anticipation of an air raid (Red) signal. The same action shall be required upon a blue signal whether it precedes or follows a red signal. The sequence of signals in such case would be blue, red, blue, red, blue. A white signal may follow a yellow signal or a blue signal, but will not follow a red signal without an intermediate blue signal. A white signal shall not be given within ten (10) minutes of a preceding blue signal. The all-clear (White) signal will not be given until the probability of attack no longer exists.

§ 10.5 *Duties on blue signal.* During the period in which the black-out (Blue) signal is in effect, preparations shall be made so that the following regulations can be immediately instituted upon the sounding of the air raid (Red) signal. Except as otherwise specifically provided in these regulations, lights on vessels and waterfront facilities essential to the war effort are not required to be extinguished or blacked out during the period and in the area of the black-out (Blue) signal, provided that such lights comply with the following conditions:

(a) That such lights comply with dim-out regulations in effect in such areas or, in the absence of such regulations, that they do not materially contribute to sky-glow, and

(b) That such lighting can be extinguished or blacked out, as provided by the regulations below, within one (1) minute from the sounding of the air raid (Red) signal.

§ 10.6 *Duties on red signal.* Except as otherwise specifically provided, the following regulations herein shall be observed upon the sounding of the air raid (Red) signal and at all times that the air raid (Red) signal is in effect.

§ 10.7 *General rules for all vessels.* Upon the sounding of the air raid (Red) signal all vessels, whether under way, anchored, or moored, shall comply with Rules 1 to 14, inclusive, and all vessels in dry-dock shall comply with Rule 15, all as follows:

RULE 1: All bulkheads, watertight doors, ports, and side ports shall be secured to insure the watertight integrity of the vessel.

RULE 2: All vessels shall immediately black-out ship, except for running lights if under way, and anchor lights if anchored, and shall shield and screen all permitted lights in such manner that they may not be observed from above and so that no reflection appears upon the water.

RULE 3: Smoking, striking matches, using lighters, or otherwise showing unshielded lights shall not be permitted.

RULE 4: All possible precautions shall be taken to prevent smoke or exhaust vapor from being observed from above.

RULE 5: Crew members shall take predetermined posts. Fire stations shall be manned, hoses stretched, fire extinguishers and sand made available for immediate use and suitable personnel stationed at all fire protection points.

RULE 6: A sufficient number of crew members shall be on board to handle fire fighting equipment and to move the vessel if this becomes necessary.

RULE 7: The crew, passengers, and any shore personnel on board the vessel shall be warned, by the sounding of the general alarm, or in other appropriate manner.

RULE 8: Life-boats shall be rigged overside, and all persons aboard shall don lifebelts and refrain from unnecessarily moving about the ship. This rule shall not apply to ferry boats or tugs, but on such vessels every reasonable precaution shall be taken.

RULE 9: No vessel shall anchor in any position which may obstruct the channel or any aids to navigation. Wherever possible, channels and fairways shall be kept clear of anchored vessels.

RULE 10: Wherever possible, vessels shall anchor at a distance of not less than 100 yards from the nearest vessel. Effort shall be made to avoid congestion at any anchorage. Sufficient space must be allowed to permit each vessel to swing free and clear from other anchored vessels with changes in the tide.

RULE 11: Except in cases of emergency, or where specially authorized to do so by Army, Navy, or Coast Guard Officers, no vessel shall get under way until the all clear (White) signal, or the black-out (Blue) signal following the air raid (Red) signal has been sounded.

RULE 12: Any vessel which requires immediate assistance because of air raid damage shall use the following signals:

By day:

(a) International code signal "NC".
 (b) Five short blasts of the ship's whistle at 30 second intervals: The ship's siren shall not be used.

By night:

(a) International code signal "NC" by Morse lights.

(b) Five short blasts of the ship's whistle at 30 second intervals: The ship's siren shall not be used.

RULE 13: Vessels permitted to proceed shall do so at a reasonable speed, keeping closely to the right of the channel and maintaining a good lookout to insure against colliding with unlighted vessels. Whistles and other sound signals shall not be given unless necessary in cases of emergency to avoid collision.

RULE 14: The anti-aircraft gun crew shall be ready to go into action as directed by military authorities.

RULE 15: Vessels in dry-dock shall black-out completely, and all fire-stations thereon shall be manned.

§ 10.8 Special rules for vessels under way. Upon the sounding of air raid (Red) signal, vessels under way shall comply with the following Rules 16 to 24, inclusive:

RULE 16: Vessels proceeding in the channel shall swing to the right, stop, and come to anchor, if this is feasible. If possible, vessels shall anchor clear of the channel and clear of all aids to navigation.

RULE 17: Vessels proceeding in bays, sounds, or lakes shall stop and come to anchor to the right of the course the vessel was steering. If possible, vessels shall anchor clear of any moored vessels and all aids to navigation. If anchoring is not feasible, such vessels shall reduce speed in order to prevent a lengthy discernible wake being observed by attacking planes, and shall steer a zig-zag course if possible.

RULE 18: Vessels proceeding in a river or harbor in which anchoring is not feasible shall moor to the bank or to the nearest wharf. If such mooring is not feasible, they shall continue on their course at reduced speed.

RULE 19: In lieu of observing Rules 16, 17, or 18, ferryboats may proceed to their nearest slip at reduced speed if the same can be reached within 15 minutes.

RULE 20: In lieu of observing Rules 16, 17, or 18, tugs without tows shall proceed to the nearest suitable berth or may tie up to any anchored vessel or to any wharf, pier, or dock, proceeding always to the right of the channel or their course, if feasible.

RULE 21: In lieu of observing Rules 16, 17, or 18, tugs with tows shall come to anchor to the right of and outside the channel or fairway if feasible. If anchoring is not feasible, such tugs and tows shall proceed at steering speed until such time as they reach a position which will permit them to anchor.

RULE 22: Vessels of all types approaching the entrance to harbors, bays, sounds, and lakes during the time an air raid (Red) signal is in effect shall maneuver clear of such entrance and proceed in a direction away from the channel.

RULE 23: In addition to the requirements of Rule 2, the visibility of navigation lights shall be reduced to insure their not being seen horizontally from a distance of over one mile.

RULE 24: While blacked out no vessel shall overtake or pass any other vessel proceeding in the same direction, except in an emergency.

§ 10.9 Special rules for vessels at anchor. Upon the sounding of the air raid (Red) signal, vessels at anchor shall comply with the following Rules 25 to 27, inclusive:

RULE 25: Anchored vessels shall immediately black-out as provided by Rule 2, except that dimmed and shielded anchor lights shall be maintained.

RULE 26: All loading or discharging activities shall cease immediately. Longshoremen working on a lighter at such vessel shall board the vessel.

RULE 27: Sufficient steam shall be maintained to enable the ship to be moved whenever necessary. Steam shall also be maintained for the operation of windlass, steering engine, and steam fire smothering lines.

§ 10.10 Special rules for vessels moored to piers or docks. Upon the sounding of the air raid (Red) signal, vessels moored

to piers or docks shall comply with the following Rules 28 to 33, inclusive:

RULE 28: All cargo handling shall cease. Vessels moored to piers or docks shall be made fast in such manner that mooring lines may quickly be let go, if necessary.

RULE 29: Sufficient steam shall be maintained in the boilers to maneuver the vessel as required. If steam cannot be maintained lines of sufficient strength shall be stretched to the shore and to the outer-end of the wharf so that the vessel may be warped from her berth if required. If steam is not required for immediate use, deck and steam lines shall be closed with the exception of windlass, capstans, steering engine, and steam fire smothering lines.

RULE 30: The ship's officers and crew aboard shall cooperate with the air raid warden organizations on the pier or dock.

RULE 31: The hatch foreman shall:

(a) Arrange to cover open hatches after directing all men below decks to leave the hold to proceed to the head of the pier or dock, and shall with the assistance of the dockman, check the evacuation of these men.

(b) Notify the head foreman or assistant foreman of the evacuation of his men.

(c) See that accessibility to hatch ladders is maintained; when ladders are blocked off by cargo, two approved type portable ladders shall be provided.

RULE 32: The dockman, with the assistance of the hatch foreman, shall see that any cargo already lifted is landed; that the apron is clear; and that the winch levers are in neutral with power turned off.

RULE 33: The head foreman or assistant foreman shall station himself at the head of a gangplank or other predetermined post and see that all longshoremen are checked off, and shall as quickly as possible notify the ship's officer on watch of such evacuation.

§ 10.11 General rules for piers and docks. Operators of piers and docks shall comply immediately with the following Rules 34 to 36, inclusive:

RULE 34: All operators of piers and docks shall appoint a chief air raid warden for each pier or dock, or group of piers and docks, who shall be a person employed thereon in a supervisory capacity. The chief air raid warden of the pier or dock and other persons regularly employed on a pier or dock shall be designated to act as air raid wardens by the operator and shall be trained pursuant to the procedure used by civilian defense authorities within their local area. These air raid warden organizations shall cooperate and coordinate their activities with the air raid warden organizations of such longshoremen groups as may be employed on the pier or dock as well as with any local air raid warden organizations, and shall act in cooperation with and under the direction of the local air raid warden service. Air raid wardens may become members of the United States Citizens Defense Corps.

RULE 35: The chief air raid warden of the pier or dock shall

(a) Assign specific duties and posts to each person acting as an air raid warden on the pier or dock.

(b) Hold drills at reasonable intervals.

(c) See that windows, skylights, doorways, and openings are provided with black-out material that will completely prevent any light from showing outside the pier or dock.

(d) Arrange the location of equipment upon the facility in such manner as will permit fire apparatus to enter freely if required.

(e) Communicate with the Captain of the Port to arrange the mooring of vessels in such manner as will permit floating fire

fighting equipment to have access thereto if required.

RULE 36: The head foreman or assistant head foreman of the longshoremen on a pier or dock shall be the chief air raid warden of his personnel, shall be trained as an air raid warden, and shall in turn be responsible for the training of his longshoremen as air raid wardens. Such longshoremen air raid organizations shall cooperate with and coordinate their activities with the pier or dock organizations and local organizations.

§ 10.12 Rules for piers and docks on red signal. The following Rules 37 to 39, inclusive, shall be complied with at all piers and docks immediately upon the sounding of the air raid (Red) signal:

RULE 37: (a) Air raid wardens and the full force of guards on the pier or dock shall immediately take up their predetermined posts covering the roof, sides, entrances and exits to the pier or dock.

(b) Drivers of vehicles on the pier or dock and their helpers shall assemble with the air raid wardens for such assignment as may be deemed advisable.

(c) The pier or dock shall be blacked out, after notifying the master or senior officer of any vessel moored thereat, and the contracting stevedores. (Upon the blue signal, notice should be given of intention to black-out.)

(d) It shall be the duty of the chief air raid warden for the pier or dock to supervise compliance with the foregoing provisions of this rule and to report any non-compliance to the operator of the pier or dock.

RULE 38: (a) All persons on the pier or dock not specifically assigned to duty shall proceed at once to designated shelter areas.

(b) Aisle space and accessibility to all fire extinguishing equipment and fire apparatus shall be maintained.

(c) It shall be the duty of air raid wardens to supervise compliance with the foregoing provisions of this rule and to report violations to the chief air raid warden. They shall also:

(b) Longshoremen handling cargo on the pier or dock shall assemble immediately for such assignment as may be deemed advisable by the chief air raid warden.

(c) The chief air raid warden of the longshoremen shall make a check-up of his men at the head of the pier or dock.

(d) Tractor and other vehicle drivers shall pull their loads and stevedoring equipment to the side aisles, or to the head of the pier or dock, turn off their motors and lights, and assist the air raid wardens in such manner as is deemed advisable by the chief air raid warden.

(e) It shall be the duty of the chief air raid warden of the longshoremen group to supervise compliance with the foregoing provisions of this rule and to report violations to the chief air raid warden of the facility.

§ 10.13 Penalty for violation of regulations. Whoever willfully shall violate any of the provisions of the regulations contained in this part shall be guilty of a misdemeanor and upon conviction thereof shall be liable to a fine of not to exceed \$5000 or to imprisonment for not

It further appearing, That by another order herein of April 20, 1943, the regulations prescribed by the Commission as Part 7 of the Motor Carrier Safety Regulations, Revised, governing the transportation of explosives and other dangerous articles by common and contract carriers by motor vehicle in interstate or foreign commerce, also were made applicable to private carriers of property by motor vehicle in interstate or foreign commerce and to common, contract, and private carriers with respect to such transportation in interstate commerce; and

It further appearing, That by an order herein of June 14, 1943, the effective date of the two said orders was postponed to January 1, 1944, insofar as those orders applied to the transportation of inflammable liquids by private carriers by motor vehicle in interstate commerce and by common, contract, and private carriers by motor vehicle in intrastate commerce; and established provisions relating to the transportation of chlorine and anhydrous ammonia in intrastate commerce; and

It is further ordered, That this order shall be effective forthwith and shall continue in effect until the further order of the Commission;

PRICES IN YORK AND HARRISBURG COAL TRADING AREAS

Order No. 50 under Revised Maximum Price Regulation No. 122—Solid Fuels Sold and Delivered by Dealers. Pennsylvania anthracite delivered by dealers in the cities of York, Harrisburg and designated townships and boroughs in York, Dauphin, Cumberland and Perry counties, Commonwealth of Pennsylvania—Coal Area III.

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1340.260 and § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does—*(1) *Dealers' maximum prices: Area covered.* If you are a dealer in "Pennsylvania Anthracite", this order sets the maximum prices which you may charge and, if you are a purchaser in the course of trade or business, this order sets the maximum prices which you may pay for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in the zones comprising Commonwealth of Pennsylvania—Coal Area III. This area consists of two zones; one is the "York Coal Trading Area", designated Zone 1, and the other is the "Harrisburg Coal Trading Area", designated Zone 2, as follows:

Zone 1.—Zone 1 includes only the following portions of York County in the Commonwealth of Pennsylvania: The City of York; the Boroughs of Dallastown, Dover, Jacobus, Loganville, Manchester, Mount Wolf, New Salem, North York, Seven Valleys, Spring Grove, West York and Yoe; and the Townships of Conewago, Dover, East Manchester, Jackson, Manchester, Newberry, North Codorus, Springettsbury, Springfield, Spring Garden, West Manchester and York.

Zone 2.—Zone 2 includes only the following portions of the Commonwealth of Pennsylvania: The City of Harrisburg, the Boroughs of Paxtang, Penbrook, and Steelton, and the Townships of Lower Paxton, Susquehanna, and Swatara in Dauphin County; the Boroughs of Camp Hill, Lemoyne, Mechanicsburg, New Cumberland, Shiremans-town, West Fairview, and Wormleysburg, and the Townships of East Pennsboro, Hampden, and Lower Allen in Cumberland County; and the Borough of Marysville in Perry County.

(2) *Schedules of prices, charges and discounts.* The applicable prices, au-

thorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Zones 1 and 2 are set forth in Schedules I and II, respectively.

(3) *To what sales this order applies.* If you are a dealer in anthracite you are bound by the prices, charges and discounts, and by all other provisions of this Order for all deliveries within Zones 1 and 2.

You shall determine the maximum price for "Direct Delivery" sales, as hereinafter defined, by reference to the appropriate Schedule of this Order covering the Zone to which delivery is made, whether or not you are located in one of the two Zones.

You shall determine your maximum price for a "Yard" sale, as hereinafter defined, by reference to the appropriate Schedule of this order covering the Zone in which the purchaser takes physical possession or custody of the anthracite.

(b) *What this order prohibits.* Regardless of any contract or other obligation, you shall not

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the Schedules herein at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the Schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Use the Schedule which covers your sale. Schedule I applies to sales on a "Direct Delivery" basis and "Yard Sales", within Zone 1. You will find Schedule I in paragraph (d). Schedule II applies to similar sales in Zone 2. You will find Schedule II in paragraph (e).

(2) *For "direct-delivery" sales in each Zone.* (i) Take the dollars-and-cents figure set forth in the applicable Schedule for the size and quantity you are selling.

(ii) Deduct from that figure the amount of the discount which you are required to give by each Schedule.

(iii) If, at your purchaser's request, you actually render him a service for

which this order authorizes a charge, you may add to the figure obtained as above stated no more than the maximum authorized service charge. You must state that charge separately on your invoice. Authorized service charges are set forth in each Schedule.

(3) *For "yard sales" in each zone.* The dollars-and-cents figure set forth in the applicable Schedule for the specified sizes and quantities shall be the maximum Zone price for sales of those sizes and in those quantities at your yard. You shall not impose any charges and you are required to give no discounts in connection with such sales.

(d) *Schedule I.* Schedule I sets forth two tables of maximum prices for sales of specified sizes and quantities of anthracite made at or to any point within Zone I (York Coal Trading Area). The first table of prices applies to "direct delivery" sales and the second table of prices applies to "yard sales".

(f) **Commingling.** Unless the buyer requests a sale of commingled sizes, your maximum price for such a sale shall be the maximum price for the smallest of the commingled sizes. If the buyer requests such a sale, and if you separately weigh the sizes to be commingled, your maximum price for the combination shall be the weighted average of the maximum prices for each of the commingled sizes.

(g) **Ex parte 148; freight rate increase.** Since the Ex Parte 148 Freight Rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any Schedule Price on account of freight rates.

(h) **Addition of increase in suppliers' maximum prices prohibited.** You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of

Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) **Taxes.** If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the tax imposed by section 620 of the Revenue Act of 1942 if actually paid or incurred by you or by any of your prior suppliers and separately stated and collected from you by your supplier. On sales to the United States or any agency thereof, you need not state this tax separately.

(j) **Adjustable pricing.** You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) **Petitions for amendment.** Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(l) **Right of amendment or revocation.** The Price Administrator may amend, revoke or rescind and the Regional Administrator upon petition may amend this order, or any provision thereof, at any time.

(m) **Applicability of other regulations.** If you are a dealer subject to this order, you are governed by the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. Sections 15 and 16 provide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but you may later be required to register. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(n) **Records.** If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, the same records you were required to preserve and keep under § 1340.262 (a) and (b) of Revised Maximum Price Regulation No. 122.

(o) **Posting of maximum prices; sales slips and receipts.** (1) If you are a dealer subject to this order, you shall post all your maximum prices as set forth in the applicable Schedule or Schedules of this order in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you sell subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged,

separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the maximum prices set hereby.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(p) **Enforcement.** (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this Order are urged to communicate with the Harrisburg District Office of the Office of Price Administration.

(q) **Definitions and explanations.** When used in this Order No. 50, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase" and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling anthracite of the sizes set forth in the Schedules herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Pennsylvania anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(5) The sizes of Pennsylvania anthracite described as egg, stove, nut, pea, buckwheat, rice, barley and screenings shall refer to such sizes of anthracite as they were sold and designated in the Commonwealth of Pennsylvania—Coal Area III during December, 1941.

(6) "Direct Delivery", except with respect to sales in 100 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the seller's truck or vehicle or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck. "Direct Delivery" in 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the

point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from seller's truck in the course of "direct delivery".

(8) "Yard Sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

(r) *Effect of order on Revised Maximum Price Regulation No. 122.* To the extent applicable this order supersedes Revised Maximum Price Regulation No. 122.

CERTAIN EXTERIOR LINSEED OIL PAINTS

[Order A-1 Under MPR 188, Amdt. 11]

MODIFICATION OF MAXIMUM PRICES

Amendment No. 11 to Order No. A-1 under § 1499.159b of Maximum Price Regulation No. 188—Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (a) (12) is added to read as follows:

(12) *Modification of maximum prices for certain ready mixed exterior linseed oil paints.*

(i) Changes in the formulae of ready mixed exterior linseed oil paints may be made by manufacturers thereof, without a reduction in the maximum prices therefor, provided that the changes are necessitated by War Production Board Conservation Order M-332, issued June 17, 1943 and effective July 1, 1943, and the formulae of such paints, as changed, shall meet at least the following specifications:

(a) The vehicle shall contain not less than 65 per cent by weight of linseed oil.

(b) The non-volatile portion of the vehicle shall consist of a homogeneous mixture of raw, refined, boiled or heat-bodied (polymerized) linseed oil and drier solids.

(c) The non-volatile portion of the vehicle shall pass a 250 per cent kauri reduction test at 25° C.

(d) Brushing, spreading, drying properties, package stability and durability of the paint shall be substantially maintained.

(e) The hiding power (opacity) of the paint shall not be decreased.

(f) The cost of the pigment per gallon of paint shall not be reduced.

(g) The volume of total pigment per gallon of paint shall not be greater than that in the formula in use by the manufacturer prior to any changes under this order, except as provided in subdivision (h) below.

"Volume of total pigment" as used in this subdivision (g) and subdivision (h) below means the sum of the volumes of each pigment ingredient per gallon of paint. The volume of each pigment ingredient per gallon of paint is equal to its weight multiplied by its bulking value.

(h) The volume of total pigment per gallon of paint shall be increased where the volume in the formula in use by the manufacturer prior to any changes under this order is so low that meeting the re-

quirement of subdivision (a) above would result in exceeding the maximum linseed oil content of 3.75 pounds per gallon of exterior paint provided by War Production Board Conservation Order M-332. In such special cases the volume of total pigment per gallon of paint required by the formula as changed shall be increased only to the point where the minimum linseed oil content provided by subdivision (a) above equals the maximum linseed oil content of 3.75, or is not less than 3.55, pounds per gallon of paint.

(ii) Each manufacturer changing the formula for any paint under the provisions of the preceding subdivision (i) shall submit a report of the changes in composition and unit costs to the Office of Price Administration in Washington, D. C. An example of such report is set out below:

Fifteen days after mailing of such report, in the absence of a notification to the contrary from the Office of Price Administration, the formula as changed without a reduction in the maximum price therefor shall stand approved. Such approval shall be subject to revocation at any time.

STANDARD OIL CO. (NEW JERSEY) AND CONSOLIDATED NATURAL GAS CO.

NOTICE OF FILING AND ORDER CONSOLIDATING AND RECONVENING HEARING AND DESIGNATING NEW TRIAL EXAMINER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 30th day of August 1943.

Notice is hereby given that an application has been filed by Standard Oil Company (New Jersey), hereinafter referred to as "Standard Oil", a registered holding company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, for approval of a plan for the divestment of its interest in all the voting stocks of four gas utility subsidiaries and one natural gas pipe line subsidiary. All interested persons are referred to said application, which is on file in the offices of the Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Standard Oil owns all of the outstanding voting stock of Hope Natural Gas Company (279,000 shares of \$100 par value common stock), The East Ohio Gas Company (285,000 shares of \$100 par value common stock), Peoples Natural Gas Company (170,000 shares of \$100 par value common stock), The River Gas Company (5,000 shares of \$100 par value common stock), and New York State Natural Gas Corporation (20,900 shares of \$100 par value common stock). Standard Oil proposes to transfer such shares of stock to Consolidated Natural Gas Company in exchange for all of the common stock of the latter company (except directors' qualifying shares) consisting of 2,728,359 shares of common stock (par value \$15 per share). After such acquisition, Standard Oil proposes to distribute to its stockholders the stock of Consolidated Natural Gas Company in the ratio of one share of Consolidated Natural Gas Company's stock for each ten shares of the stock of Standard Oil then outstanding. No fractional shares or scrip for fractional shares are to be issued, but in lieu thereof Standard Oil proposes to distribute to its stockholders

cash for fractional shares based upon the market value (when, as and if issued trading) of Consolidated Natural Gas Company's stock at the time of the declaration of the distribution.

It appearing to the Commission that it is appropriate, in the public interest and in the interests of investors and consumers, that a hearing be held in respect of such matters and that the application may not be granted except upon further order of the Commission; and

Consolidated Natural Gas Company having heretofore filed applications or declarations, or both, with this Commission under sections 7 and 10 of the Public Utility Holding Company Act of 1935 regarding the acquisition from Standard Oil of all the outstanding voting stocks of the five subsidiary companies mentioned above and the issue and exchange therefor by Consolidated Natural Gas Company of all of its common stock (except directors' qualifying shares); and

The Commission having heretofore issued its notice of filing and order for hearing in respect of said declaration and application of Consolidated Natural Gas Company, pursuant to which public hearings have been held from time to time and adjourned subject to the call of the Trial Examiner; and

It further appearing to the Commission that the plan filed herein by Standard Oil (File No. 54-83) and the pending applications and declarations of Consolidated Natural Gas Company (File No. 70-586) involve common questions of law and fact and should be consolidated; and

It further appearing that the Trial Examiner heretofore designated to preside at the hearing in this proceeding will be unable to do so;

It is ordered, That said proceedings (File Nos. 54-83 and 70-586) be consolidated and that hearings on such matters under the applicable provisions of the Act and the Rules promulgated thereunder be reconvened and held on September 14, 1943, at 10 o'clock in the forenoon of that day at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On that day, the hearing-room clerk in Room 318 will inform the parties as to the room in which said hearing will be held.

It is further ordered, That notice be given of said reconvened and consolidated hearing to the above-named declarants and applicants by registered mail and to all other interested persons by publication in the FEDERAL REGISTER.

It is further ordered, That Willis E. Monty, an officer of the Commission, be, and he hereby is, designated to preside at such hearing in the place and stead of, and with the same powers and duties as, the Trial Examiner heretofore designated to preside at such hearing.

It is further ordered, That any person desiring to be heard in connection

No. 175—6

with these consolidated proceedings or proposing to intervene herein shall file with the Secretary of the Commission, on or before the 10th day of September, 1943, his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That, without limiting the scope of the issues presented by these proceedings, attention will be directed at the reconvened hearing to the following matters and questions:

1. Whether the plan of Consolidated Natural Gas Company and Standard Oil is necessary to effectuate the provisions of section 11 (b) of said Act;
2. Whether said plan is fair and equitable to the persons affected thereby;
3. Whether the fees, expenses and other considerations to be paid or received, directly or indirectly, in connection with the proposed plan and the transactions incidental thereto are for necessary services or purposes, reasonable in amount and properly allocated;
4. Whether the transactions involved comply with all of the requirements of the applicable provisions of the Act and Rules promulgated thereunder;
5. Generally, whether any of the proposed transactions are detrimental to the public interest or the interests of investors or consumers or will tend to circumvent the provisions of the Act or any Rules, Regulations, or Orders of the Commission thereunder;
6. Whether, and, if so, to what extent, the plan should be modified or terms and conditions imposed to assure adequate protection of the interests of investors, consumers and the public interest and compliance with all applicable requirements of the Act.

It is further ordered, That jurisdiction be, and is hereby reserved, to separate, whether for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters which may arise in this proceeding, or to consolidate with this proceeding other filings or matters pertaining to said plan or to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.
